

## **HCCUA Launches new Website**

The Health Care Credit Union Association (HCCUA), a not-for-profit association dedicated to the health of its members, has announced the launch of its redesigned website. With a refreshing and innovative look, the new [www.HCCUA.org](http://www.HCCUA.org) will be fully operational by Monday, May 26, 2008. A main focus of the new website is to provide an easy to navigate environment where HCCUA members can access the information they need the most.

Built on a foundation of great customer service, the website better enables members to take full advantage of the services and benefits HCCUA offers, such as group health insurance, valuable credit union products, roadside assistance, Pet Assure, and personal and family services. The site informs and educates members on how to make better economic and lifestyle choices to improve their physical and financial health. A section on Health and Wellness, for example, is rich with information on finance, fitness and nutrition, personal development and family. With the click of a button, a member can access a provider search which will locate the nearest doctor, hospital, or pharmacy in their network. The website's Resource Center offers financial health calculators, designed to help members choose the right insurance, manage their investments, and plan for retirement.

HCCUA is committed to consistently finding ways to better fulfill the needs of our members by offering services to enhance overall well-being and quality of life.
